## 4 SERVICE LEVEL AGREEMENT

1. This document describes the service levels to be established for the Services offered by the SI to the Sikkim Police. The SI shall monitor and maintain the stated service levels to provide quality service to the Sikkim Police.

### 2. Definitions.

(a) “**Scheduled Maintenance Time**” shall mean the time that the System is not in service due to a scheduled activity as defined in this SLA. The scheduled maintenance time would not be during 16X6 timeframe. Further, scheduled maintenance time is planned downtime with the prior permission of the Sikkim Police.

(b) “**Scheduled operation time**” means the scheduled operating hours of the System for the month. All scheduled maintenance time on the system would be deducted from the total operation time for the month to give the scheduled operation time. The total operation time for the systems and applications within the Primary DC, DRC and critical client site infrastructure will be 24X7X365. The total operation time for the client site systems shall be 18 hours.

(c) “**System or Application downtime**” means accumulated time during which the System is totally inoperable within the Scheduled Operation Time but outside the scheduled maintenance time and measured from the time the Sikkim Police and/or its employees log a call with the SI team of the failure or the failure is known to the SI from the availability measurement tools to the time when the System is returned to proper operation.

(d) “**Availability**” means the time for which the services and facilities are available for conducting operations on the Sikkim Police system including application and associated infrastructure. Availability is defined as:

$$\{( \text{Scheduled Operation Time} - \text{System Downtime} ) / ( \text{Scheduled Operation Time} )\} * 100\%$$

(e) “**Helpdesk Support**” shall mean the 16x6 basis support centre which shall handle Fault reporting, Trouble Ticketing and related enquiries during this contract.

(f) “**Incident**” refers to any event / abnormalities in the functioning of the Data Centre Equipment / Services that may lead to disruption in normal operations of the Data Centre, System or Application services.

(g) “**Error**” in data digitization or data migration exercise, refers to the mistakes made intentional/ unintentional by SI which may or may not change the actual meaning of the subject.

**3. Interpretations.**

- (a) The business hours are 8:30AM to 4:30PM on all working days (Mon-Sat) excluding Public Holidays or any other Holidays observed by the Sikkim Police. The SI however recognizes the fact that the Sikkim Police offices will require to work beyond the business hours on need basis.
- (b) "Non-Business Hours" shall mean hours excluding "Business Hours".
- (c) 18X7 shall mean hours between 06:00AM -12.00 midnight on all days of the week.
- (d) If the operations at Primary DC are not switched to DRC within the stipulated timeframe (Recovery Time Objective), it will be added to the system downtime.
- (e) The availability for a cluster will be the average of availability computed across all the servers in a cluster, rather than on individual servers. However, non compliance with performance parameters for infrastructure and system / service degradation will be considered for downtime calculation.
- (f) The SLA parameters shall be monitored on a monthly basis as per the individual SLA parameter requirements. However, if the performance of the system/services is degraded significantly at any given point in time during the contract and if the immediate measures are not implemented and issues are not rectified to the complete satisfaction of the Sikkim Police or an agency designated by them, then the Sikkim Police will have the right to take appropriate disciplinary actions including termination of the contract.
- (g) A Service Level violation will occur if the SI fails to meet Minimum Service Levels, as measured on a half yearly basis, for a particular Service Level. Overall Availability and Performance Measurements will be on a monthly basis for the purpose of Service Level reporting. An "Availability and Performance Report" will be provided by the SI on monthly basis in the Sikkim Police suggested format and a review shall be conducted based on this report. A monthly Availability and Performance Report shall be provided to the Sikkim Police at the end of every month containing the summary of all incidents reported and associated SI performance measurement for that period. The monthly Availability and Performance Report will be deemed to be accepted by the Sikkim Police upon review and signoff by both SI and the Sikkim Police. Where required, some of the Service Levels will be assessed through audits or reports e.g. utilization reports, measurements reports, etc., as appropriate to be provided by the SI on a monthly basis, in the formats as required by the Sikkim Police The tools to perform the audit will need to be provided by the SI. Audits will normally be done on regular basis or as required by the Sikkim Police and will be performed by the Sikkim Police or the Sikkim Police appointed third party agencies.
- (h) EMS system as specified in this RFP shall play a critical role in monitoring the SLA compliance and hence will have to be customized accordingly. The 3rd party testing and audit of the system shall put sufficient emphasis on ensuring the capability of EMS system to capture SLA compliance correctly and as specified in this RFP. The selected System Integrator (SI) must

deploy EMS tool and develop additional scripts (if required) for capturing the required data for SLA report generation in automated way. This tool should generate the SLA Monitoring report in the end of every month which is to be shared with the Sikkim Police on a monthly basis. The tool should also be capable of generating SLA reports for a half-year. Sikkim Police will audit the tool and the scripts on a regular basis. SPMC shall assess the EMS requirements and include the same in the RFP.

- (j) The Post Implementation SLAs will prevail from the start of the Operations and Maintenance Phase. However, SLAs will be subject to being redefined, to the extent necessitated by field experience at the police stations / higher offices and the developments of technology practices globally. The SLAs may be reviewed on an annual/bi-annual basis as the Sikkim Police decides after taking the advice of the SI and other agencies. All the changes would be made by the Sikkim Police in consultation with the SI.
- (k) The SI is expected to provide the following service levels. In case these service levels cannot be achieved at service levels defined in the tables below, it shall result in a breach of contract and invoke the penalty clause. Payments to the SI are linked to the compliance with the SLA metrics laid down in the tables below. The penalties will be computed and calculated as per the computation explained in this Annexure. During the contract period, it is envisaged that there could be changes to the SLA, in terms of addition, alteration or deletion of certain parameters, based on mutual consent of both the parties i.e. the Sikkim Police and SI.
- (l) Following tables outlines the key service level requirements for the system, which needs be ensured by the SI during the operations and maintenance period. These requirements shall be strictly imposed and either the Sikkim Police or a third party audit/certification agency shall be deployed for certifying the performance of the SI against the target performance metrics as outlined in the tables below.
- (m) "In case of different penalty calculations for any SLA violation, the higher penalty would prevail"

**3. Violations and Associated Penalties**

- (a) The primary intent of Penalties is to ensure that the system performs in accordance with the defined service levels. Penalties are not meant to be punitive or, conversely, a vehicle for additional fees.
- (b) **Penalty Calculations.** The framework for Penalties, as a result of not meeting the Service Level Targets are as follows:
- (i) The performance will be measured for each of the defined service level metric against the minimum / target service level requirements and the violations will be calculated accordingly.
- (ii) The number of violations in the reporting period for each level of severity will be totaled and used for the calculation of Penalties.
- (iii) Penalties applicable for each of the high severity violations are 0.1% of respective payment-period payment to the SI.
- (iv) Penalties applicable for each of the medium severity violations are 0.05% of respective payment-period payment to the SI.

**2. Client Site Infrastructure Systems**

- (a) **Critical Client Site Systems.** The failure or disruption results in inability of the police station / higher offices to service its dependent offices or perform critical back-office functions. Critical client site infrastructure means the IT infrastructure at client site which are shared by multiple users i.e., Core Switch, Core Routers, etc.
- (b) This service level will be measured on a monthly basis for each implementation site.
- (c) The below tables gives details on the Service Levels the SI should maintain.

Service Description	Level	Measurement
Client Site Systems Availability		<p>Availability of the critical client site infrastructure components at all the implementation sites shall be at least 99%</p> <p>Severity of Violation: High</p> <p>This service level will be measured on a monthly basis for each implementation site.</p> <p>If the availability in a month for an implementation site falls below the minimum service level, it will be treated as one (1) violation.</p> <p>The total number of violations for the six-month period will be the cumulative number of violations across all the months across all sites in the six-month period.</p>

**3. Handholding Support: Client Site Support**

- (a) **Level 1 Incidents.** The incident has an immediate impact on the Sikkim Police’s ability to service its police stations / higher offices, to perform critical back-office functions or has a direct impact on the organization.

- (b) **Level 2 Incidents.** The incident has an impact on the Sikkim Police's ability to service its police stations / higher offices that while not immediate, can cause service to degrade if not resolved within reasonable time frames
- (c) The severity of the individual incidents will be mutually determined by the Sikkim Police and SI.
- (d) The scheduled operation time for the client site systems shall be the business hours of the Sikkim Police.
- (e) This service level will be measured on a monthly basis for each implementation site.
- (f) The tables on the following page give details of the Service Levels the SI is required to maintain.

**9. Violations and Associated Penalties**

- (a) The primary intent of Penalties is to ensure that the system performs in accordance with the defined service levels. Penalties are not meant to be punitive or, conversely, a vehicle for additional fees.
- (b) A six monthly performance evaluation will be conducted using the six monthly reporting periods of that period.
- (c) **Penalty Calculations.** The framework for Penalties, as a result of not meeting the Service Level Targets are as follows:

- (i) The performance will be measured for each of the defined service level metric against the minimum / target service level requirements and the violations will be calculated accordingly.
- (ii) The number of violations in the reporting period for each level of severity will be totaled and used for the calculation of Penalties.
  - a. If the total number of credits gained by the SI is lower than the total number of high severity violations in the reporting period, the total number of credits will be subtracted from the total number of High Severity Violations in the reporting period for the calculation of Penalties.
  - b. If the total number of credits gained by the SI is higher than the total number of high severity violations in the reporting period, the resultant total number of high severity violations in the reporting period for calculation of penalties will be considered as zero (0).
- (iii) Penalties applicable for each of the high severity violations is two (2) % of respective half yearly payment to the SI.
- (iv) Penalties applicable for each of the medium severity violations is one (1%) of respective half yearly payment to the SI.
- (v) Penalties applicable for each of the low severity violations is half percentage (0.5%) of respective half yearly payment to the SI.
- (vi) Penalties applicable for not meeting **a high (H) critical** performance target in two consecutive half years on same criteria shall result in additional deduction of 5% of the respective half yearly payment to the SI. Penalty shall be applicable separately for each such high critical activity
- (vii) Penalties applicable for not meeting **a medium (M) critical** performance target in two consecutive half yearly periods on same criteria shall result in additional deduction of 3% of the respective half yearly payment to the SI. Penalty shall be applicable separately for each such medium critical activity
- (viii) Penalties applicable for not meeting **a low (L) critical** performance target in two consecutive half yearly periods on same criteria shall result in additional deduction of 2% of the respective half yearly payment to the SI. Penalty shall be applicable separately for each such medium critical activity

It is to be noted that if the overall penalty applicable for any of the review period during the currency of the contract exceeds 25% or if the overall penalty applicable for any of the successive half year periods during the currency of the contract is above 15%; then the Sikkim Police shall have the right to terminate the contract
